

Today's business world really is survival of the fittest.

## Stay competitive by being more efficient and productive with Mobile Locator™.

Keep your workforce moving more effectively. Deliver products and services on time. And when you encounter a bump in the road that could impact your bottom line, be ready for anything with **Mobile Locator™**.

- **Customer Service** – Stay informed of your drivers' locations. Zoom in on the clickable map, and inform customers of expected arrival times.
- **Unexpected Delays** – Sometimes drivers require a new route or a delivery takes more time than expected. Text your drivers new directions in English or Spanish using the **Mobile Locator™** driving directions.
- **Save Time and Money** – No need for a separate GPS system in addition to the cell phones. And by tracking deliveries and people, you can take care of any problems immediately – rerouting, informing customers of delays, etc.
- **Easy to Use and Get Started** – All you need is a Sprint or Nextel GPS-enabled phone, a PC with Internet access and a MySprint account.

## Only \$15 per month.
