

With Java-enabled Yahoo! Messenger on your mobile phone, you can keep in touch with your friends, family, and business associates via instant messaging – without launching a data session on your phone.

**WHAT YOU NEED**

- Nextel Internet-ready phone
  - Subscription to a wireless data service package or select rate plan
  - A Yahoo! ID and password
- Note:** To get a Yahoo! ID and password, go to <http://www.yahoo.com>.

**DOWNLOAD ENHANCED IM SERVICE ON YOUR PHONE**

1. From the idle screen, press **IM**.
2. Select **Downloads > Applications-download > IM [model #]**.
3. Follow instructions to purchase the service.
4. Press **Return** to return to idle screen.
5. From the idle screen, press **IM**.
6. Select **Java Apps > Download Apps > New Purchases > IM [model #]**.
7. Wait for the application to download. When finished, it will appear in the Java Apps main menu.

**USING YAHOO! MESSENGER ON YOUR PHONE**

**Signing In**

1. From the idle screen, press **IM**.
2. Select **Java Apps > IM [model #]**.
3. Select **YAHOO MESSENGER**.
4. Enter your Yahoo! ID and password and press **Send** under **Sign In**. The Yahoo! Messenger main page is displayed.

**Signing Out**

When you are done using Yahoo! Messenger, you should sign out so that others know you are offline.

1. From the Yahoo! Messenger main page, press **IM**.
2. Select **Sign Out**, then press **OK** when prompted to confirm.

**OVERVIEW**

When you sign in to Yahoo! Messenger, the main page displays:

- Conversations
- Online contacts
- Offline contacts

Additional options are available by pressing **IM**:

- Sign Out
- Add Contact

- My Status
- Send message to...
- Saved History
- Refresh list

When you sign in to Yahoo! Messenger, there are no active conversations listed. As conversations are initiated, they are displayed in the **Conversations** list.

<p>yourYahoo!ID Conversations (#) contact Online (#) contact contact Offline (#) contact contact</p> <p>View Info <b>IM</b> Send IM</p>	<p><b>Conversations</b> lists your active Yahoo! Messenger conversations by contact name.</p> <p><b>Online</b> lists the names from your Contact List that are currently signed in and available for Yahoo! Messaging.</p> <p><b>Offline</b> lists the names from your Contact List that are not currently signed in.</p>

**MANAGING YOUR CONTACTS**

**Adding a Contact**

You can add a new contact by entering their Yahoo! ID.

1. From the Yahoo! Messenger main page, press **IM**.
2. Select **Add Contact**, then enter the contact's Yahoo! ID and press **Send** under **OK**. You will see "Updating your Contact List..." followed by "<contact> added."

**Renaming a Contact**

You can rename online and offline contacts to use nicknames instead of their full Yahoo! IDs.

1. From the Yahoo! Messenger main page, highlight the contact you want to rename and press **IM**.
2. Select **Rename**, then type the nickname and press **Send** under **OK**. The contact list will be updated.

**Deleting a Contact**

You can delete online and offline Contacts.

1. From the Yahoo! Messenger main page, highlight the contact you want to delete and press **IM**.
2. Select **Delete Contact**.
3. Press **Send** under **OK** to delete the contact.

**SENDING AN INSTANT MESSAGE**

You can open an instant messaging session with any online contact. To send an instant message:

1. Scroll to the desired online contact and press **Send** under **Send IM**. (The conversation page will be displayed.)

2. Type your message and press **Send**.
  - To use Quick Text, press **IM**, select **Insert Quick Text**, select a message, then press **Send**.
  - To insert an emoticon, press **Emoticon** under **Emoticon**, select the emoticon, then press **Send**.

**Note:** The maximum number of characters for an instant message is 400 characters.

**RECEIVING AN INSTANT MESSAGE**

You will hear an alert tone from your phone when a new message has been received. (An exclamation point [!] in the "Conversation" icon indicates new messages.) To view a new message, highlight the sender in the Conversations list and press **IM**.

**Note:** You can receive incoming messages while typing.

**REPLYING TO AN INSTANT MESSAGE**

When you receive an instant message, just type your response from the conversation page, then press **Send** under **Send**.

**ENDING A CONVERSATION**

1. To end a conversation from the main page, highlight the contact name in the Conversation list and press **IM**. (From an active conversation page, just press **IM**.)
2. Select **End conversation**.
3. Press **Send** under **OK** to confirm.

**SAVED CONVERSATIONS**

**Saving a Conversation**

You can save active conversations from the conversation page or from the Yahoo! Messenger main page.

1. From an active conversation, press **IM** and select **Save**. From the main page, highlight the conversation and press **Send** under **Save**.
2. Enter a name for the conversation and press **Send** under **OK**.

**Viewing a Saved Conversation**

You can save active conversations from the conversation page or from the Yahoo! Messenger main page.

1. From the main page, press **IM** and select **Saved History**.
2. Highlight a conversation and press **Open** under **Open**.

**Note:** Saved conversations can be accessed from additional instant messaging programs on your phone, including AOL Instant Messenger and MSN Messenger.
